

# INCREASE YOUR PREDICTIVE INDEX® KNOWLEDGE — ONLINE

PI Worldwide  
People Smart. Results Driven.®

**LEVERAGE YOUR  
INVESTMENT IN THE  
PREDICTIVE INDEX®  
WITH FLEXIBLE  
E-LEARNING COURSES  
FROM PI WORLDWIDE.**

Enhance and reinforce Predictive Index® (PI®) knowledge at all levels of your organization with our new online courses. Each 30-minute session delivers powerful proprietary content, interactive practice, and comprehensive information to increase the learner's ability to apply PI insights to help tackle everyday and strategic business challenges.

Delivered through the online PI Worldwide E-learning Center, access to these courses is fast and convenient. A Knowledge Check at the end of each course allows learners and their managers to assess and track learning results.

These online courses benefit veteran and new clients alike, educating managers about how the insights revealed by the Predictive Index can be harnessed to drive business results. Trained PI Analysts refresh proprietary core concepts, methodologies and discover best practices in delivering PI Feedback. Both Analysts and non-Analysts learn about behavioral assessments and how the Predictive Index can be used as a strategic management tool to guide decisions throughout the talent life cycle.

**PI Worldwide e-learning courses. Anytime. Anywhere.** A convenient, efficient, and powerful investment in your employees, enhancing and leveraging the power of the Predictive Index throughout your organization.

Here's what we're hearing about  
PI e-learning courses...

“ *Behavioral Science and the Predictive Index* presents an impactful overview of the changes in business environment, workforce needs, and provided a call to action for managers to learn more about the roles behavior and motivation play in employee productivity.”

“ *Predictive Index Review* reminded me that answers to day to day challenges are available by looking back at the PI.”

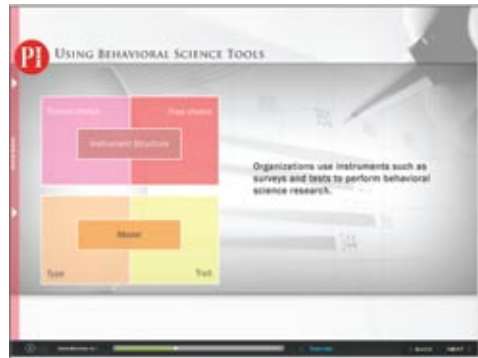

“ As a result of taking PI Worldwide's *Delivering Powerful Feedback* I will be a better communicator of PI results. The visual and interactive material had significant impact, allowing me to learn a lot in a short amount of time.”

The PI® e-learning courses offer you a way to leverage your investment in the Predictive Index® system by reinforcing and building upon the concepts and skills presented in behavioral science and the PI Management Workshop™. Through stimulating lessons and interactive practice, learners review concepts, refresh skills, and extend their application for business advantage.

### Course 1100: Introduction to Behavioral Science and the Predictive Index®

For both Analysts and non-Analysts, learners discover:

- History of behavioral science
- Applications of behavioral science to business
- Components of the Predictive Index system
- Uses of PI
- PI case studies
- Knowledge Check

*“...Great call to action for managers to learn more about the roles behavior and motivation play in employee productivity.”*

### Course 1200: Predictive Index® Review

In this course, trained PI Analysts review the core concepts of PI:

- Primary Factors of the Predictive Index
- Factor Emphasis Combinations
- A/D Relationship
- “Cutback D”
- Resultant Factors
- Reference Patterns

*“...Loved it. Great review. My PI foundation all came back to me after this module.”*

### Course 1210: Delivering Powerful Predictive Index® Feedback

In this course, PI Analysts enhance feedback skills:

- Prepare to give PI feedback
- Read the Self, the Self-Concept, and the Synthesis patterns
- Understand complex patterns
- Deliver PI feedback confidently and successfully

*“...Good review of all aspects of giving feedback, supported by strong examples.”*
